

Profile Cylinder

Choose. Measure. Order.

1. Choose Key Profile

flat key

dimple key

2. Choose Cylinder Type

double cylinder

knob cylinder

half cylinder

external cylinder

3. Choose Specification

keyed different

keyed alike

4. Optional: Emergency Function (EF)

yes

no

The emergency function (EF) allows profile cylinders to be operated on both sides with a key even if a key is already inserted on the other side. In an emergency situation, a door can then be opened from the outside or inside with the help of a second key without breaking the lock.

5. Measure Cylinder Length

inside **A**

_____ mm

outside **B**

_____ mm
