General notes

Intended use

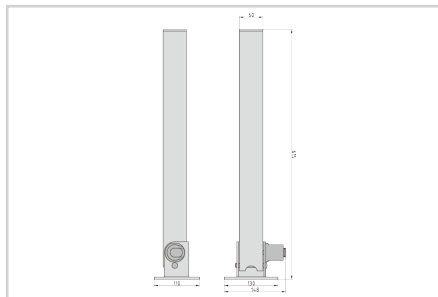

The robust folding parking post KFZ 106 is lockable. This makes it ideal for use as a barrier post for parking spaces, driveways or passageways. With the KFZ 106 folding parking post, you can prevent unwanted vehicles from parking in your private parking space or driveway in just a few simple steps. When you want to use the blocked off area yourself, simply fold down the post. Thanks to the bright yellow colour, the post is easy to see – even in the dark.

Warnings: No hazards are to be expected, if the device is used correctly and in accordance with the instructions. Small parts and packaging materials can be swallowed by children and lead to choking! Make sure that small parts and packaging materials do not get into the hands of children. Dispose of the packaging material immediately.

Disclaimer

The manufacturer accepts no liability for damage or injury resulting from incorrect handling.

Mounting

1. This product should be anchored in the floor with three M12 bolts with a minimum length of 100 mm (Not included in delivery).
2. When you have found the right position, mark the drill holes on the floor with the help of the floor plates.
3. Drill three holes according to manufacturer's instructions of the bolt manufacturer.
4. Clean the three holes of dirt and dust by blowing, brushing or the vacuum cleaner.
5. Screw the bolts through the bottom plate into the previously drilled holes.
6. Pull the bolts according to the manufacturer's instructions.

Attention

Place the bollard on a level and firm surface. The bollard does not work on loose and unstable ground. He is not made to change the location after the first install. Choose the location carefully and pay attention to pipes or power lines.

Disposal

Help to protect the environment and dispose of the product and the packaging materials in accordance with the local regulations. Do not dispose of the appliance with household waste!
